

BroadJump Rx Search

Pharmacy leaders need clear, unbiased insight into how their prices compare across the market. BroadJump Rx Search delivers a comprehensive, impartial database built from all major wholesalers and Group Purchasing Organizations, covering everything from large IDNs and academic medical centers to standalone hospitals and non-acute facilities. With this foundation, organizations can evaluate pharmaceutical pricing with confidence — free from bias and informed by real-world data across every segment of care.

Impartial, Agnostic Comparative Database

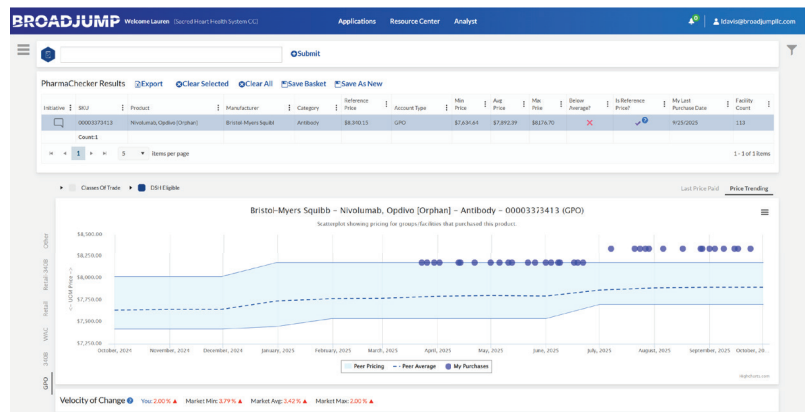

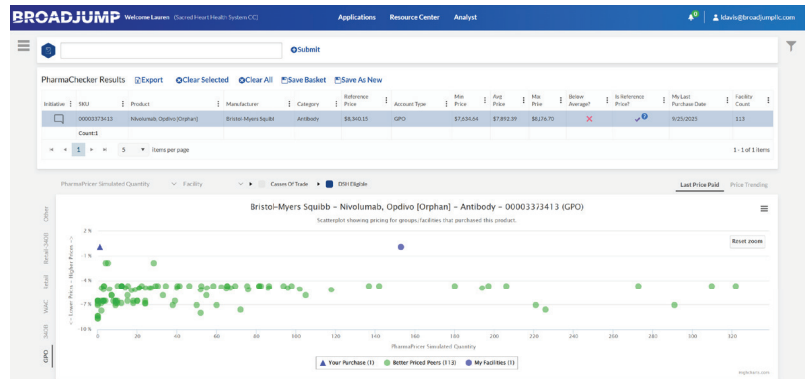

Curvo’s pharmacy data comes from all wholesalers and Group Purchasing Organizations and spans across large IDNs, academic medical centers, small standalone hospitals, and non-acute facilities

NDC Benchmarking and Trend Analysis

Visualize market dynamics for a single NDC or basket of pharmaceuticals, including price trends over time for the market as a whole and within your organization.

Accurate and Flexible Comparatives

All price comparatives take Account Type into consideration, with the ability to narrow your cohort by Class of Trade and DSH Eligibility Status. Obtain additional information that may illustrate the “why” behind specific price points, including facility spend, purchase quantity, bed size, and group size.
